1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

This application is a 371 OF pct/fr04/01971 07/23/2004.

***Remarks***

***Allowable Subject Matter***

2. Claims 18-31 are allowed.

The following is an examiner's statement of reasons for allowance:

Prior art of record fails to disclose or fairly suggest, alone or in combination, an electrical supply device configured to deliver energy to a structure that includes at least first and second electrodes and a space containing a gas to be excited and particularly including "a resonance means for fixing the frequency at substantially the resonant frequency of the system and a control system connected to the switch to open and close the switch over a period, wherein closing of the switch, which is closed for a duration, is triggered by choice at one of the following instants: at a zero crossing of the current

flowing through the structure; when the voltage crosses a threshold voltage; at a threshold light level; or when the current flowing through the structure crosses a threshold current", in combination with the remaining claimed limitations as recited in claim 21 (claims 18-20, 22-31 are allowed, since they are dependent on claim 21).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
